Your City bill will include your Electric Usage, Electric Fuel Adjustment, Water Usage, Wastewater Plant, Garbage, Sewer and Water Protect Fee. The Wastewater Plant fee (WWP) is based on your winter water usage average and ranges from \$15.00 a month to \$180.00 a month, per water meter. Your WWP charge will be \$25.00 for the first year of service until your average has been established. If you do not pay for your Water Usage, your WWP charge will remain at \$25.00. The Electric Fuel Adjustment (EFA) is a monthly fee charged to all Electric customers. This fee is to help cover the cost for fuel sources (diesel and natural gas) that run the City's engines which are used to generate electricity. As the cost of fuel fluctuates from month to month, this fee will vary as well as it is based upon your total kilowatt usage for that month and the price of fuel during the month of consumption.

Your utility bill will be mailed on the 1st or the 15th of every month, depending upon which area of town you live in. If your bill is mailed on the 1st of the month, the due date will be the 12th of each month. If mailed on the 15th, the due date is the 27th of each month.

### \*RATE CODES

- ER1 – Residential
- ER2 – Total Electric
- EC1 – Electric Commercial
- EC2 – Total Electric Commercial
- EFA – Electric Fuel Adjustment
- MVL – Mercury Vapor Light
- WC – Water Commercial
